**Finally, a unique diagnostic instrument  
dedicated to motorbikes that is updated simply  
by using your shop's telephone.**

With the 3.0.0 Motor Bikes version, all the main  
models of Japanese motorbike makers have been included:

Honda, Kawasaki, Suzuki, Yamaha, which join  
the already existing brands: Aprilia, Benelli, Cagiva, Ducati, Guzzi,  
Laverda, Mondial, Piaggio, Triumph and... the prestigious MV  
Augusta brand. New communication protocols have also been  
inserted, CAN NETWORK (e.g.: Moto Ducati).

As well as injection self-diagnosis,

**AXONE 2000** offers: CO Adjustment,  
Key Encryption, ABS and Immobilizer Diagnosis.
